

Product Specification

Product Name:	Hum-A-Flow
Product Number:	5031
Product Description:	A combination of hydrated sodium calcium aluminosilicate, the natural humates, humic and fulvic acids, and mannose oligosaccharides derived from the cell wall of yeast <i>Saccharomyces cerevisiae</i> for use in animal feeds as a mycotoxin binder.
Ingredients:	Hydrated sodium calcium aluminosilicate, dried aged peat moss (humic and fulvic acids), condensed molasses fermentation solubles (MOS)
Odor and Appearance:	Light to dark grey/black colored, free-flowing powder with little to no odor
Packaging:	25 kg bags
Directions For Use:	Add at the rate of 500 – 3000 grams per ton of animal feed. The amount of molds and mycotoxins in the feed should be considered when determining the usage rate.
Safety:	All ingredients are Generally Recognized As Safe by the United States Food and Drug Administration. There are no adverse effect, interactions or contraindications with the product. No withdrawal time is required.
Storage and Shelf Life:	Three (3) years from manufacture date; store in a cool, dry area. Keep container closed when not in use.
