

Product Specification

Product Name:	Hum-A-Mos
Product Number:	5030
Product Description:	A concentrated source of mannose oligosaccharides derived from the cell wall of yeast <i>Sacchaormyces cerevisiae</i> and the natural humates, humic and fulvic acid, for use in animal feeds as a mycotoxin binder.
Ingredients:	Condensed molasses fermentation solubles (MOS), dried aged peat moss (humic and fulvic acids), sodium bentonite
Odor and Appearance:	Dark grey/black, free-flowing powder with a slight yeast odor
Packaging:	25 kg bags
Directions For Use:	Add at the rate of 500 – 3000 grams per ton of animal feed. The amount of molds and mycotoxins in the feed should be considered when determining the usage rate.
Safety:	All ingredients are Generally Recognized As Safe by the United States Food and Drug Administration. There are no adverse effect, interactions or contraindications with the product. No withdrawal time is required.
Storage and Shelf Life:	Three (3) years from manufacture date; store in a cool, dry area. Keep container closed when not in use.
